Youth and Young Adult Reentry Project RFQ Q&A

Updated on 06.18.2024

Q. Will you consider a program that involves remote training?

- A. Remote training programs are not ideal for Young Adult Reentry Program participants, however, interested applicants should submit quotes that align with the target population and the workforce development area high-priority occupations list as stated in the Request for Quote document. Programs should also include industry-recognized credentialing as an outcome, and programming be completed by June 2025.

Q. What is the expected duration for the training programs you are interested in?

- A. There is flexibility in program duration, but programming must be completed by June 2025.

Q. Could you share your expectations regarding the number of participants for the program?

- A. Approximately 10 or fewer participants as training funds are specifically allocated through this initiative.
